## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-8, 21 and 24-27, drawn to a cholesteric layered material, classified in class 349, subclass 185.
  - II. Claims 9-20 and 28-29, drawn to a process for the production of a cholesteric layered material, classified in class 349, subclass 187.
  - III. Claims 30-35, drawn to a method of making an article incorporating the cholesteric layered material, classified in class 296, subclass 21.
2. The inventions are distinct, each from the other because:
3. Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case the process of casting and simultaneous alignment of a coating composition can be made by a different process in which the material can be prepared by applying polymerizable mixture to a surface, orienting the liquid crystals present in the mixture, polymerizing the mixture and detaching the polymer film and comminuting the polymer to form the particles. The method in Invention III is distinct because it refers to making an article that incorporates the material.

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II or III, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
